GPD CUBA - SPONSORSHIP OPPORTUNITIES

The **GLASS PERFORMANCE DAYS (GPD)** is an independent forum dedicated to the development of the global glass industry through education. This is done by holding conferences in different countries. Currently the conferences take place bi-annually in Finland (where GPD also holds workshops and a glass exhibition), India and Brazil every two years and in China every year. In 2016, the new **GPD CUBA** will be held during the event **CUBA GLASS**.

The success factors of the Glass Performance Days are obvious. When experts get together to talk business at a focused event, ideas are born, shared and debated. They are also discussed by very knowledgeable people with practical experience and high level vision; as a result they become real industry applications much more quickly than would otherwise occur. With today's rapid pace of change this has created distinct competitive advantages for those who take part.

CUBA GLASS is supported by the leading magazines and website for the glass sector:

Bi-monthly dedicated to the flat glass industry

Bi-monthly dedicated to the hollow and special glass

Worldwide website for the glass industry
