CRYSTALITE BOHEMIA

Hand-made elegance and colours for today's modern home environments

Crystalite Bohemia

*tradition - top design -
state-of-the-art technology*

*“Experience in the production
and decoration of pure elegance”*

The Czech company Crystalite Bohemia s.r.o. was founded in October 2009 and now has two production plants. The first represents the glassworks Světlá nad Sázavou with fully automated production of beverage and

decorative glass (the factory was established in 1967). The second represents the factory Kvetná based in Strančice (established in 1794), where handmade glass production is situated. The Kvetná factory also offers various

decorative techniques for its customers. Both factories employ around 1,000 workers and generate a turnover of more than EUR 50 million per year, while exporting products to more than 82 countries worldwide. The

sole proprietor of Crystalite Bohemia is Mr. Lubor Cerva, a Czech businessman and investor.

For the production of its entire assortment, Crystalite Bohemia uses environmentally friendly

CRYSTALITE BOHEMIA

lead-free glass, and, in 2016, the composition was enriched with Titanium, guaranteeing greater strength of the finished products. Such enriched glass offers all the qualities of refraction that traditional Czech Crystal offers; making the products even stronger and more resistant to use in a dishwasher. Currently, Crystalite Bohemia is the only glassworks in the Czech Republic and second in Europe to use titanium-enriched glass for its production.

Both plants work closely together. Besides production, the Světlá factory also includes the commercial and administrative headquarters of the entire company. The Kvetná factory takes care of decorating, engraving or grinding of both beverage and decorative glass, not only of Kvetná-made products, but also glass items made on automatic lines at Světlá nad Sázavou.

The two plants melt more than 140 tons of glass daily, producing 150 thousand pieces of beverage glass and 40 thousand pieces of decorative glass, which ranks Crystalite Bohemia among the biggest producers of

“Titanium
glass melt for
crystal brilliance
and greater
resistance”

Clear-cut elegance with
Fregata stemware

CRYSTALITE BOHEMIA

beverage and decorative glassware in the world.

New for 2018

Clean and simple shapes dominate the beverage glassware category. For the first time, Crystalite Bohemia introduces a special collection of beer glassware called 'Beercraft'. Next, two new shapes of stemware 'Rissa' and 'Columba' supported with a beautiful carafe 'Alcedo'

In the Decorative glassware category 'Casablanca', 'Barley Twist,' and 'Origami'. Further demonstrating the technical prowess of the company is the range 'Dynasty' where a 45-cm tall vase displays the excellence of the company's glass, this is the largest vase produced on the big press machines in Svetla nad Sazavou to date.

Kvetna is the birthplace of two new collections 'Aspire', showing off the excellence of hand made skills and "Optic

Rhythm," produced using historic optic moulds found in the cellars.

Besides the company's in-house designers, contributing to product development, Crystalite Bohemia also co-operates with famous designers such as Simon Moore, Martin Fait and Rony Plesl, all of whom create collections for both automated production and handmade products in all categories. *

Barley Twist - enhancing the aroma of good whiskey

KVETNA PRESENTATION

The Kvetna glass factory represents the longest operating glassworks in our territory. It was built in 1794 and established by Duke Alois of Lichtenstein. The changing point for the factory, which up to that moment had specialized in the production of utility and tableware glass, came in the middle of 19th century, when it was bought by Austrian businessman Emanuel Zahn. The new owner then initiated the production of fine crystal glass with grinding and engraving decorations. It was also Mr. Zahn who brought with him experienced glassmakers knowledgeable in new techniques and manufacturing methods. Consequently, these steps led not only to a rapid improvement of the product quality, but also to a growth of the product assortment and overall modernization.

The name of the factory was changed in 1894 to the local name Kvetna (Blumenbach). The Kvetna name soon became a hallmark of quality and was sought after in the world markets. The company Zahn & Gopfert opened showrooms and warehouses in London, Paris, Berlin, Hamburg, and exhibited at Leipzig world trade fair and at this point was the second glassworks in Europe to introduce decoration by glass etching. These products were exported as far as the US, Africa, Australia, Egypt, Scandinavia, Austria, Germany, and Switzerland. The Kvetna glass factory continued production in the first half of the 20th century. It remained in operation after nationalization and, between 1961 and 1990, belonged to the national enterprise Moravian Glassworks. After the Velvet Revolution, several equity and ownership changes took place, culminating in January 2011 when the Kvetna plant became a part of the Crystalite Bohemia Group.

Today, Kvetna significantly supports the Svetla factory not only by its own handmade production, but also by various decorative techniques. Worldwide, Kvetna stands among the best glass factories offering a wide and unique beautiful coloured glass.

EVANS ATELIER

Simple shapes and colors that remind us of water flowing

“Contemporary design goes hand in hand with elegant shapes for unique items for today’s modern homes”

Natural colours and shapes
for elegant decoration

Evans Atelier

Contemporary design art glass

Evans Atelier is a contemporary design art glass studio which specializes in production of unique hand-crafted glass. Since each piece is individually crafted, EA is ideally suited to custom production. EA assortment: the Studio Collection comprises exceptional pieces with imaginative hand-painted décor. Its unique proprietary techniques enable their artisans to achieve extraordinary shades and original effects. The Hot Glass Collection includes

free-formed and mouth-blown glass vases, bowls, centrepieces and other handmade objects.

In EA own designed collection of interior art glass accessories you can find products that are brought to life directly in their workshop, where glass is cut into appropriate sheets, ground, laid into self-made ceramic moulds, and at high temperatures bent (i.e. slumped) into desired shapes. Then the newly born bowls, platters, vases etc. are hand-painted.

Moments of life – in Evans' glass designers' words

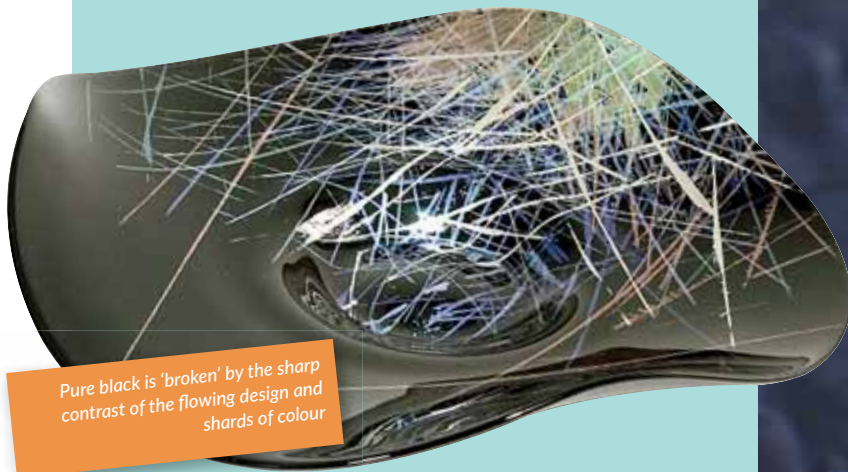

We believe there are moments in life that you never forget. It doesn't matter if it is your first kiss, the seconds of crazy happiness after completing your first sand castle, or the satisfaction of climbing a tough mountain you had always wanted to conquer. Memories are everybody's treasure. And isn't it remarkable how precisely

Pure ethnic design for this
table centre

EVANS ATELIER

Abstract design and colours in this special item

Pure black is 'broken' by the sharp contrast of the flowing design and shards of colour

you remember even the tiniest detail of those memories? The colour the skies were that particular day, the magical look of iridescent shells in the sand, the sound of pebbles under your feet or the scene of crystal icicles and white snow adorning tree branches nearby? Our creation has been inspired

exactly by this feeling. We attempt to bring artifacts of harmony between man and nature from outside to our homes to keep the precious memories alive. Let's surround ourselves with pieces of art we love. We believe that every day brings new unforgettable moments – moments of life.

Transparency and brilliance for these luxury items

Hand-formed and mouth-blown pieces

The other remarkable products in EA art glass collection are hand-formed and mouth-blown pieces that are made according to their design sketches in partnering glassworks around the Czech Republic.

The production procedure is fascinating. On his/her blowpipe a glassblower takes up a sizeable portion of glowing honey-like molten glass. By turning the blowpipe around and by additional blowing and winding up further hot glass layers a product is formed step by step to get

Design, colour and elegance in this collection

the desired shape. Glass is always fragile and noble, mystical and unparalleled. It is the love that lasts a lifetime! ✨

FAMILY COMPANY

We are a family company which was founded thanks to friendly relationships with our co-founders based in California. Over the years, we have become a fully Czech-owned company. We are based in the north of Czech Republic, the region which is said to be the cradle of European glassmaking in general.

Jolana Ctvrtckova, the company owner and mother of four, says: "There would be nothing without friends and family, and if you have inspiring work that you love on top of it, it's pure happiness. The formation of the company has been a big, yet enriching challenge for me since its very origins. It's an unceasing creative process." We've developed a unique painting technology that is similar to the historical 'under-painting' method from our region of Northern Bohemia. Times ago such painted glass pictures were decorating every cottage in the mountains surrounding us.

KAVALIERGLASS

Patented one touch orosilicate containers.
Store your food in the fridge and reheat it in the microwave.

Kavalierglass

Modern design, pure transparency and practicality.

Kavalierglass is a leading European producer with more than 180 years of tradition in borosilicate glass production. The company sells a wide range of domestic cooking glassware, industrial-, laboratory- and technical glass, tubes, rods and industrial apparatus. Kavalierglass regularly comes up with innovations that it then shows

at fairs, attending such fairs on an ever more regular basis. It actively searches for interesting new projects and areas of work and cooperates with both established and novice designers. Most of its production is exported, to more than 90 countries of the world. Kavalierglass is a progressive and economically stable company with a melting

capacity of over 220t ons of glass per day, which makes it the largest producer of borosilicate glass worldwide.

Simax Glass

In 1958, SIMAX 3.3, borosilicate glass, invented by Dr. Miloš Wolf CSc with his team, was patented. This glass has chemical and temperature resistance in accordance with

“With SIMAX, Kavalierglass gives us a modern style of lifestyle for everyday living”

KAVALIERGLASS

international standard ISO 3585 and tested according to EN 1183.

SIMAX Glass Benefits

- natural material
- recyclable and ecological
- high heat resistance
- no flavour or odour absorption/release
- food contact safe
- health safe/cadmium & lead free

At our stand you can see the biggest presentation of double wall glasses featuring two walls of borosilicate glass, creating a highly effective layer of insulation. The double walls have unique, simple, safe drinking edges, which maintain the temperature of drinks warm or cold for longer. moreover, the glasses are also dishwasher-, fridge- and microwave safe. *

Double-wall glasses maintain drinks hot or cold for longer

SIMAX - a series of glasses, carafes and casseroles for the modern table

“SIMAX Home - top quality Czech glassware and cookware”

KAVALIERGLASS

With 180 years of experience in the production of borosilicate glass, Kavalierglass offers a wide range of products for domestic, industrial and laboratory applications.

The diversity and technical complexity of Kavalier's goods requires us to continuously innovate and to be a world leader of production processes and solutions in order for it to keep pace with market trends internationally. Excellent quality is a tradition that Kavalier prides itself on and we meet and exceed the requirements of the system of quality management based on ISO 9001.

For many years, our customers have appreciated our creativity, high-quality technical facility, flexibility and excellent customer service. Thanks to our employees we are capable of fulfilling the ever increasingly diverse and complex demands of our partners.

RONA

“celebrating 125 years of creativity
and craftsmanship with new collections”

Grace the home with
RONA glassware

Perfect glass for complete
home table setting. Rona's concept
glass selections will satisfy all
entertaining needs

Rona Glassworks

*12 decades of tradition,
premium quality
and timeless design
with new collections*

This year, Rona Glassworks is celebrating 125 years of the factory's foundation, which took place in 1892. Over these years, extensions of Rona's

popular designs can be seen across machine made pulled stemware ranges, including the latest introductions called Lord, Balloon, and Spirit,

to name just a few. These designs, like many others, boast all the beauty of the finest quality machine made crystalline glassware.

“Rona offers the highest quality glassware available, with products that represent an exciting combination of elegance and technology in addition to creative design, fine cold-cut rims and beautifully drawn stems – all synonymous with Rona glassware and the company's 125 years of history, experience, creativity and craftsmanship.”

RONA

“state-of-the-art machines and technology impressed in glass”

Rona at present

Rona is now a company with a strong export position, qualified staff and cutting edge technology. It is well known as one of the world's leading and largest manufacturers of non-lead household crystalline glassware. Rona's core production line is machine made, followed by various decorations and handmade items, launched as Rona Premium.

Unique design

Rona products represent an exciting combination of elegance and technology in addition to creative design

RONA

Handcrafted Premium

The finest products, exquisitely mouth blown and handcrafted by Rona glassmasters, in Lednické Rovne, Slovakia. Each item is an unique masterpiece that captures the mood and a memory to be treated with highest respect

Spirit Collection

A modern series of wine cups that fully respects the requirements of classic wine cups and meets the high demands of their use. Sommeliers and wine makers can appreciate the consistency of classic shaping in modern processing

Rona handmade glass – marketed under the Premium brand

Rona also pleases consumers, who love and admire fine handmade glassware. The company's Premium handmade stemware and finest degustation glass collections are crafted using the thin-walled pulled stemware technique. Glass designed for especially those who like to entertain their guests at

home and modernize table settings with unique mouth blown glass pieces. Preferred shapes and sizes can be selected from many available such as wine, goblet, bordeaux, chardonnay, flute, sherry or glass barware ranges, celebrating with loved ones the harmony of cherished moments and the timeless beauty of Rona Premium handmade glass. Entertaining and gift giving with Rona glassware has never been easier. *

“Rona decorated glass – an alliance of great shapes, decorations and technology”

RONA'S MACHINE MADE PRODUCTION - A GLASSWORKS WITH CUTTING EDGE TECHNOLOGY

Rona uses technology of the so-called 'pulled stem' in the blow - blow process. This automatic technology process simulates handmade production and creates products of highest quality. Rona produces glassware in the quality of lead free - crystalline blanks. This is a well-balanced improved mix of all basic necessary glass components - the result is now the ultimate brilliance in colour of the glass, with beautiful sound.

SAME DECORAZIONE

IMPERIALE
collection

SAME

*The excellence
of decoration*

“Established in 1976 by Giovanni Costoli, the company has maintained the simple solid philosophy of a family-run business. Today Giovanni’s son Marco leads the company, putting as much passion and enthusiasm into his work as his father did, exporting a piece of Italian creativity with the SAME brand over five continents.”

SAME DECORAZIONE

The quietness of art in a place where works of art are produced daily. Outside, where we prefer to leave the excessive noise of contemporaneity, glaring avant-gardism; at SAME the roar of accelerated innovation is replaced by the harmony of the slow, skilled movements of hands. This is the atmosphere inside SAME, glassware

decorators, a small yet major entrepreneurial reality, an example of Italian excellence which, even at a difficult time such as this, enjoys unfaltering success on international markets. SAME is located in the heart of Tuscany, in the town of Montelupo Fiorentino, a name that promptly evokes a major experience in the history of the so-called

‘minor’ Italian arts such as the manufacturing of ceramic objects and artistic accessories.

It’s as if talent and handcrafting expertise were in the DNA of these Tuscans, born in a place where the wheel and colours are an intimate part of the landscape with its numerous stores and workshops that mingle with other ‘modern’

activities.

SAME Decorazione was established here in 1976 thanks to Giovanni Costoli, the soul of a company which, despite its increasing success, has maintained intact over time the simple solid philosophy of a family-run business.

Today Giovanni’s son Marco leads the company’s business both nationally

exhibitions, SAME collections bear witness to the exporting of the best artistic hand-crafting traditions of our country throughout the

world. It is above all abroad that the brand sells its objects, exporting as much as 85 per cent of its production to Asia, the East, the

Americas and, over the last 20 years, also to Australia. In every continent there is a piece of Italian creativity with the SAME brand.

PREZIOSA collection

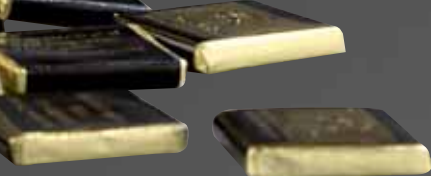

and internationally putting as much passion and enthusiasm into his work as his father did, proposing creations born out of the hands of 'his' decorators.

“Made by SAME”
– across five continents

Present at HOMI and at the Salone del Mobile in Milan, in Frankfurt and at many other

MEDICI collection

SAME DECORAZIONE

Decoration

The art of decoration carried out by SAME's artisans is a melody of confident yet gentle movements, highly skilled strokes aimed at achieving, millimeter by millimeter, the perfection of their effects.

The raw materials that the decorators use for painting on glass and crystal are the most precious in the world: platinum and pure gold. Once melted and diluted

*Pure gold
decoration at its best*

DIAMANTE ROSSO
collection

Glass Style

they become fluid colours that are ready to follow and fill the lines engraved by a pantograph on the surfaces of the objects, lines traced to mark the path that the paintbrush imbued with paint has to follow.

DOLCEVITA
collection

The most popular decoration is in polished gold followed by opaque gold decoration. Platinum is used to offer the magnetic beauty of the silver-coloured decorations. When drawings, edges, curls and twirls have been completed, the item is baked in furnaces which are now computerized and which reach a temperature as high as 600° to obtain the perfect adhesion of the gold and platinum to the glass or crystal surface.

Once ready, these veritable jewels for the home are placed in their cases ready to be sent off to their various destinations, rooms and houses that will experience the evocative emotions created by SAME.

The collections

There are several complete ranges of glasses, goblets, flutes and pitchers for wine and water in the sizes that meet the requirements of the different countries they

INFINTO
collection

SAME DECORAZIONE

Transparent or coloured glass combined with the precious decoration for an important table

are destined for: the art of tableware is like an infinite pentagram bearing the sound of the thousand different compositions created by SAME's notes.

Perjures of vases, trays, ashtrays, candle holders, candy holders, perfume bottles and many other furnishing accessories, together with tableware sets, give life to an ocean of suggestions.

The shapes of the single pieces reflect different styles and tendencies: the classic and evergreen lines that maintain intact over time the capacity to please clients without ever ageing are flanked by items with lines closer to more clear-cut and

minimalistic contemporary designs to integrate with the latest furnishing trends. *

“melody of confident yet gentle movements, highly skilled strokes”

Tradition and elegance meet gold for this complete set of stemware and decanter

CRAFTWORK COMPANY
 We are a craftwork company made up of artisans and maestros and we decorate glass and crystal objects exclusively by hand using gold and platinum finishing. Thanks to a rich product range of vases, perfume bottles, candlesticks, tableware, dinnerware and many other items, the company is known by the most famous Italian and, in particular, international buyers; in fact, we export 85 per cent of our production. Our handmade features and our experience are fundamental in order to create exclusive decorations. Our artisan masters' creativity gives us the opportunity to have new products every day. Moreover, we work to respond to our customers' demands all around the world. Our mission is transmitting the elegance, creativity and emotions of a true 'Made in Italy' creation.

VETRERIA ETRUSCA

Vetreria Etrusca *the elegance of personalised glass*

Transparency and decoration together
in glass items for the home

“Each and every bottle and glass container must first and foremost enhance and promote its contents. Vetreria Etrusca is aware that the identity of the brand of its clientele lives in the shape, colour and details of the glass. That’s why it places special focus on identifying solutions that make the product created as personal and unique as the brand of each customer”

VETRERIA ETRUSCA

Leader in the production of special containers

Vetreria Etrusca is a leader in the production of special containers, characterised by great creative sensitivity and a constant search for the technical solutions most able to meet the myriad of market demands, from the creation of products with original designs, to the personalisation of the existing lines in the catalogue. All our products are available in three colours, Extrabianco, Mezzobianco and Verdetrusco® for

containing and preserving the excellence of high-quality products.

Vetreria Etrusca is the star among the strictly 'Made in Italy' manufacturing companies, reaching far beyond the idea of a simple production company to be instead, a laboratory of research and innovation, with special focus on eco-sustainability and the ongoing expansion of the most stimulating production offers for the market: the factory of transparent ideas with its eyes on the future since 1920.

Home Division

Vetreria Etrusca's Home Division focusses on products dedicated to dynamic homes with attention to traditions, typical of Italian homes. The collection is characterized by Tuscan fantasy, with which each and every item is designed, developed and created entirely in-house at Vetreria Etrusca.

Most of the product range is aimed at the kitchen and the table - in typical Italian style. The different models of containers for food, such as spices and pasta, often with the name of the contents

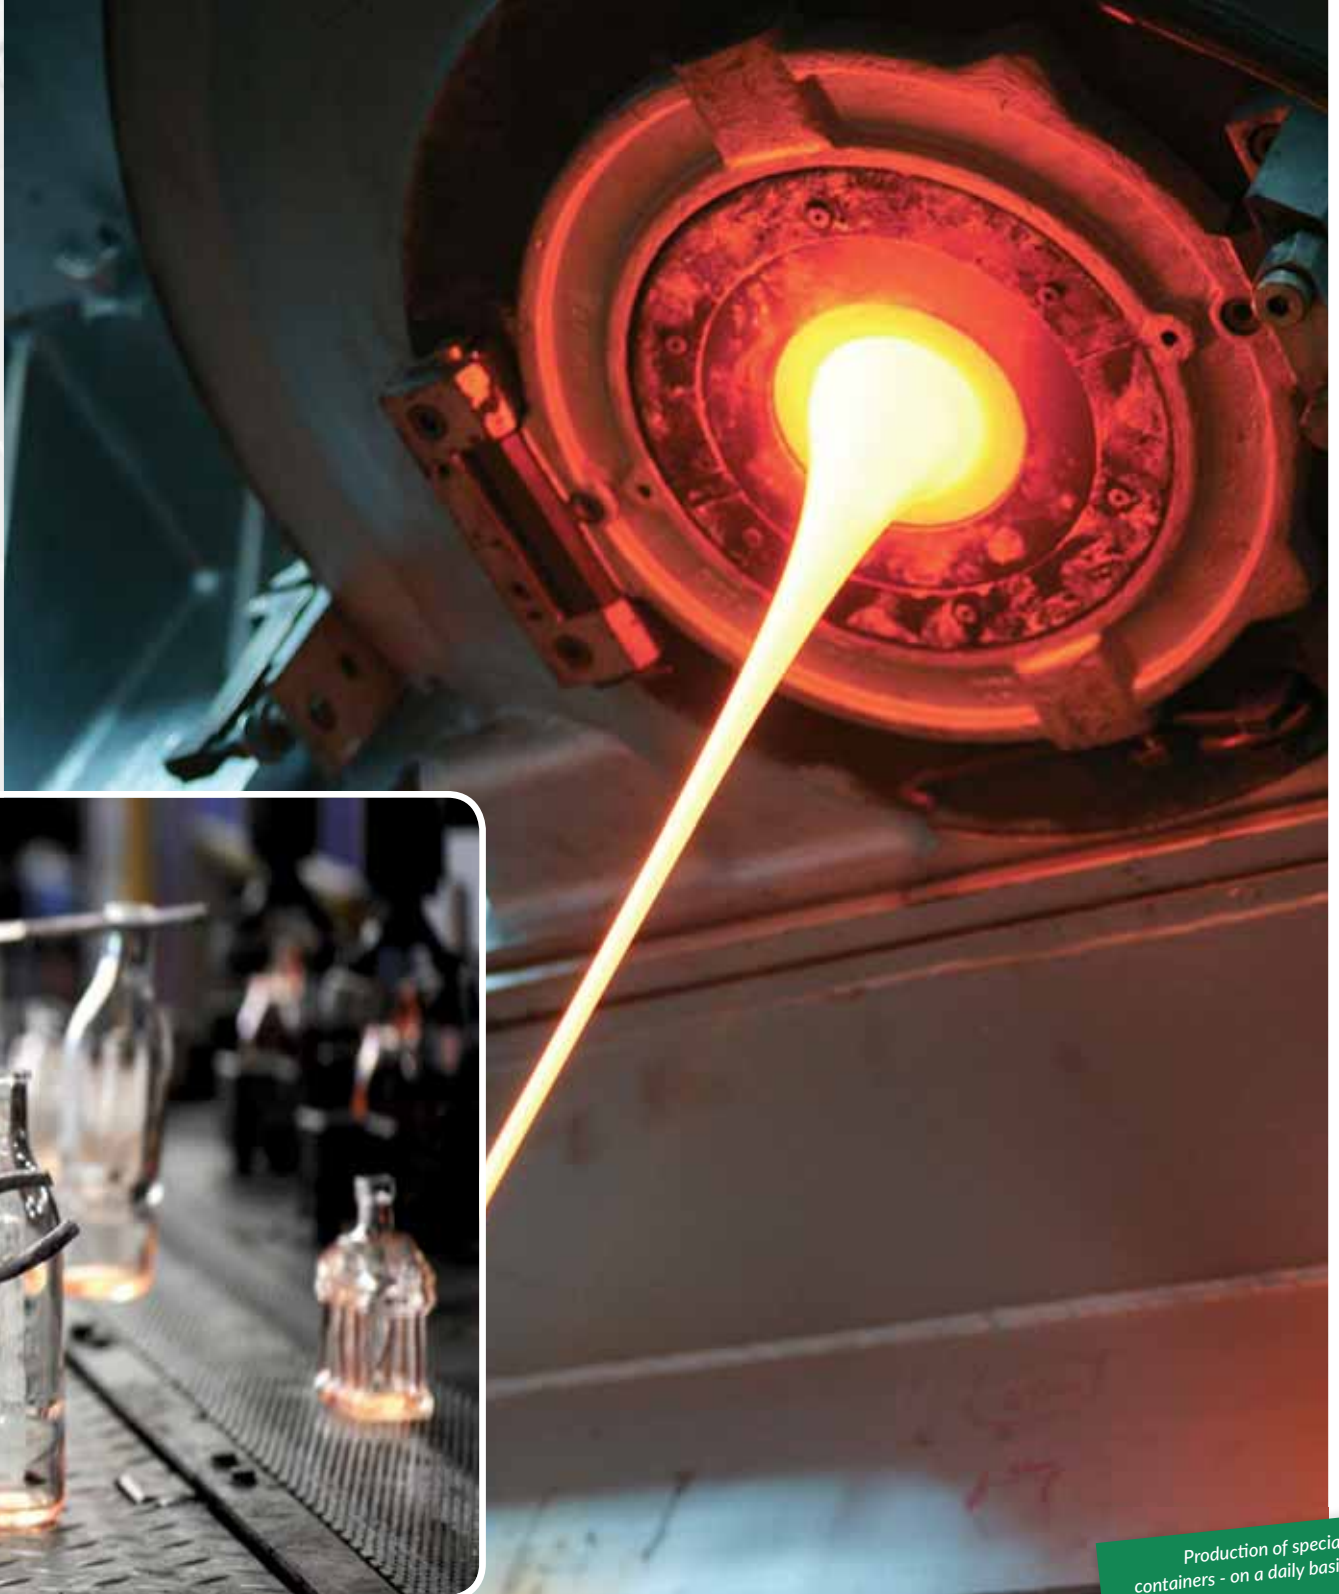

embossed directly onto the glass, give kitchens an air of fantasy.

The large variety of glasses, with matching jugs, enable to create different table settings according to a particular theme or following the style of our home. The 'Latte' range, for example, is perfect for breakfast time or children's teatime.

The numerous bottles of the 'Fantasia' range, with their different shapes, bring happiness and memories, giving a 'sparkling' touch to homes and shops.

The Vetreria Etrusca

Production of special containers - on a daily basis

VETRERIA ETRUSCA

Personalized and purely artistic bottles for the Fantasia range

VETRERIA ETRUSCA

catalogue also covers the perfumery sectors – offering manufacturers numerous unique-designed bottles for their perfumes.

The company's symbol colour is – and has always been since the first production batches in the 1950s – 'Mezzobianco' (half-white). It is the typical colour of recycled glass, giving lightness and freshness to the products and, at the same time, allows us to respect the environment.

Thanks to our knowledge of

“products dedicated to dynamic homes with attention to traditions”

Production unit at Altare, Savona

the market and experience, along with attention to details – an important characteristic of Made in Italy – Vetreria Etrusca designs and products are innovative and functional, but above all reliable.

Changing Atmosphere an elegant touch to the home

Vetreria Etrusca reinvents the wine bottle and enters the

world of interior decoration with a collection of previously unimagined or designed glass items. Each bottle is unique thanks to a series of cuts made by hand and designed specifically for each model. The result is a line of décor items that can also be used as vases, candleholders or simply for adding an elegant touch to the home. *

Changing Atmosphere

'Old' and 'new' premises of Vetreria Etrusca

FROM WINE AND OIL TO ARTISTIC GLASS

The choice of the name 'Etrusca' was not by chance, linked as it is to the enthusiastic revaluation of the Etruscan glassmaking art that took place in the 1920s, when Vetreria Etrusca was founded in Empoli and produced flasks, demijohns and all the containers used in the production of wine and olive oil.

In 1928, when Vetreria Etrusca changed location and became a joint stock company called Società Anonima Etrusca, it started producing artistic glass in the traditional Empoli green colour. In 2016, three prestigious TÜV certifications were confirmed. These attest to the great attention paid to quality in the company's production processes, respect for environmental sustainability, and safety in the workplace.

Zafferano

*making glassware
with passion*

“Zafferano has been creating collections of glasses and tableware in glass and porcelain since 2001, and is well-known as an all-Italian trademark for tasting glasses, combining creativity and design, using ancient and innovative glassmaking techniques”

Zafferano:
Italian creativity and design

Zafferano, an Italian company directed by Federico de Majo, has been creating collections of tasting glasses and tableware in glass and porcelain since 2001. This is a company in which creativity and Italian design make up the basis for product design and realization of objects created not only to be functional and decorative but

Esperienze: an innovative
wine tasting experience

ZAFFERANO

also to bring dreams and emotions to life. Federico de Majo has always worked in the world of glass, starting off in the Murano glassworks of the family and dedicating himself to the sector of illumination to then move on to the creation of an all-Italian trademark for tasting glasses. Thanks to the experience accumulated over the years with master glassblowers, and to his passion for glass-making and for design, Federico de Majo has created collections of wine-glasses for tasting and objects

for decorating the table that in a short time have distinguished themselves at an international level for originality and creativity.

Esperienze: an innovative wine-tasting experience

The intuition that led Federico de Majo to design the “Esperienze” collection, with its patented technique of working the glass, was that of amplifying the surface area with which the wine comes into contact so as to enhance the process of oxygenation.

With the creation of these wine glasses the way of tasting wine has changed. The ripples at the bottom of the wine glass facilitate swirling, oxygenation and the consecutive phases in the wine-tasting process up to the point where the perfect conditions for drinking are reached. To this collection belongs the wine glass of the Venetian Teatro La Fenice customised with its logo and a special packaging.

“Ultralight” wine glasses: a challenge

The “Ultralight” collection is the challenge of Federico de Majo in his search for excellence in the quality of the working of the glass applied to the technique of tasting. This collection of “superlight” wine glasses may be considered the harbinger of a new direction in design that is destined to leave an important mark in the

entwining of the history of the Zafferano brand with the evolution of the world of wine-tasting.

“Perle”: the charm of an ancient glassmaking technique

It is an old method of working the glass, that of applying a twist to the glass and breaking it, that Zafferano has taken up again

in the creation of “Perle”, a tableware series in coloured and transparent glass, complete with water, wine and soft drinks tumblers, cheerful and brightly-coloured carafes and bowls, all created to embellish the elegance at the table.

“an all-Italian trademark for tasting glasses”

The Perle collection of water, wine and soft drinks tumblers, in transparent and coloured glass

ZAFFERANO

“Bilia” and “Bilia Finger Food”, borosilicate glass collections

The philosophy and the vocation of the company

lie in the continuous search for innovation. The use of borosilicate glass, a “neutral glass” of great interest for its capacity of resistance and decorative effects, in some new collections as “Bilia” and

“Bilia Finger Food”, attests this research.

This material, that is light and at the same time resistant to sudden changes in temperature, is ideal for producing glasses that are

delicate but can also be used for hot drinks, without detracting anything from the transparency. “Bilia” glasses stand out for their decorative detail in the

Bilia glasses, with their particular detail, can also be used for hot drinks

A PASSION FOR GLASSMAKING

Zafferano, an Italian company directed by Federico de Majo, has been creating collections of tasting glasses and tableware in glass and porcelain since 2001. Federico de Majo has always worked in the world of glass, starting off in the Murano glassworks of the family and dedicating himself to the sector of illumination to then move on to the creation of an all-Italian trademark for tasting glasses.

Thanks to the experience accumulated over the years with master glassblowers, and to his passion for glassmaking and for design, Federico de Majo has created collections of wine-glasses for tasting and objects for decorating the table that in a short time have distinguished themselves at an international level for originality and creativity.

Glass Industry Directory 2017

NEWS, COMPANIES, PUBLICATIONS AND MUCH MORE...

PUBLICATIONS

COMPANIES

NEWS

SUBSCRIBE NOW TO THE WORLD'S LEADING

Glass Magazines

1988

glassmachinery
world
plants & accessories
BI-MONTHLY INTERNATIONAL MAGAZINE FOR GLASS MANUFACTURING

GLASS MACHINERY PLANTS & ACCESSORIES is the leading international magazine for glass manufacturing, and is targeted at glassworks involved in the production and processing of hollowware and special glass (bottles, containers, household, lighting, technical, scientific, industrial and medical glassware).

GLASS MACHINERY PLANTS & ACCESSORIES is a bi-monthly periodical with about 100 pages of product news, current world news, focus on..., technical articles and dossiers, worldwide exhibitions, glassworks in the world, Yellow Pages, etc.

1989

Glass-Technology
International

GLASS-TECHNOLOGY INTERNATIONAL is the leading international magazine for professionals involved in the flat and bent glass industry, from building to automotive, and from furniture to household appliances. **G-TI** is useful for those working in float glass plants as well as glass processors/fabricators, glazing contractors, automotive glass installers, window and door manufacturers, glass merchants, wholesalers, etc. With about 100 pages per issue, it is the bi-monthly tool for keeping abreast of new technology, new products, company life and all innovations in the world of flat and bent glass.

Annual Guides

1990

Glass Industry
Directory 2017

The **GLASS INDUSTRY DIRECTORY** is a unique international annual guide which gives a complete overview of international glassworks and suppliers involved in hollowware and special glass manufacturing. About 300 pages of complete company profiles: addresses, management, sister companies, plants, number of employees, turnover, banks, year of company foundation, capital, trademarks, areas of activity, innovations, product-by-product and country-by-country breakdowns. The **GLASS INDUSTRY DIRECTORY** is the annual reference point for the international glass manufacturing industry comprising bottles and containers, domestic glassware, tubing, vials and ampoules, lighting glassware, technical and industrial glassware, scientific, laboratory and medical glassware and much more.

2013

FLATGLASS
2017 world directory

The **FLAT GLASS WORLD DIRECTORY** is a unique international annual guide providing a complete overview of glassworks and suppliers for the flat glass sector. More than 150 pages of company profiles and information about worldwide glassmakers, glass processors and suppliers, including addresses, management, sister companies, plants, number of employees, turnover, banks, year of company foundation, capital, trademarks, areas of activity, innovations, sales network, exhibitions, and, of course, interactivity in digital format, make the **FLAT GLASS WORLD DIRECTORY** the annual reference point for the international flat glass industry.

2017

GLASSPACKAGING
WORLD DIRECTORY 2017

The **GLASS PACKAGING WORLD DIRECTORY 2017**, the first international directory dedicated to the production of the glass packaging industry, provides company profiles of suppliers, enabling them to present their companies and activities, along with photos of products and the companies. The profiles will be available on the glass.style website, for all potential users and users of container glass and accessories.

The directory promotes and supports **Glass Pack 2018 - second edition** (to be held from 13 to 14 June 2018 at Brixia Forum - Brescia), the unique European show entirely and exclusively dedicated to glass packaging.

NEW

Glass Style
WORLD DIRECTORY 2018

GLASS STYLE WORLD DIRECTORY 2018 is the only international annual directory dedicated to the industry of glass and crystal tableware and products for the home.

The directory, which is made up of 2- or 4-page company profiles, provides information regarding companies, new collections and product innovations for tableware, the kitchen, giftware, interior design, artistic glass, costume jewellery, etc.

The Directory is also available in digital format at www.glass.style.
