COMPANY PROFILE

We know glass, we love glass

Bottero is the only company in the world that engineers, manufactures, installs, and services equipment for both flat and hollow glass.

Due to its uniqueness, Bottero is the ideal partner for glass producers and processors seeking advanced technologies to shape one of the most beautiful and useful materials: glass. Our commitment to innovation and technology drives us to continuously seek newer and more effective solutions to enhance and expand the use of glass.

Since 1957, Bottero has been dedicated to serving customers worldwide with a passion for technology and innovation. With over 200 different types of glass production equipment and more than 60,000 processing machines installed around the globe, Bottero is an indispensable partner for anyone looking to work with glass.

New acquisitions, new opportunities

As part of its expansion strategy, Bottero recently acquired – through its subsidiary E2Pack Srl – a business unit from the EMS Group in Montecchio Emilia, specializing in end-of-line and packaging systems.

This acquisition extends Bottero’s offering to include packaging solutions for the food, beverage, pharmaceutical, and hollow glass sectors, reinforcing its position as a global supplier of complete systems.

A global group with engineering at its core

With over 600 employees – 25% of whom are involved in R&D and technical services we continue to invest in intelligent and sustainable solutions to drive the transformation of the glass industry.
