Luben Glass has been in the hollow glass market since the 1980s, and has established itself as a leading company specialized in the supply of spare parts, special equipment, plants, machines and chemicals, while adding engineering and energy consulting services alongside the sales department. LUBEN GLASS' mission is to satisfy the needs of its clients, offering innovative products based on the creation of components for different types of forming machines and plants in response to the many functional needs of both the hot- and cold end of glassworks.

Thanks to the work carried out by our skilled technicians we are able to provide standard products, as well as those which respond to the specific needs of our clients, guaranteeing the maximum reliability of our products.

Dynamic aspect and construction expertise are the winning features of LUBEN GLASS.
