### LiTROS - a brand of the LiSEC Group

LiTROS is a brand of the LiSEC Group, which provides a simple and inexpensive entry into the world of industrial glass processing - with a well-thought-out range of products and integrated solutions throughout the entire production process. You benefit from high-Quality entry-level products and comprehensive service and consulting. With LiTROS, you have a reliable partner who will accompany you on your path to partial automation and future-proof your production processes.

The LiTROS product portfolio is based on three central categories: insulating glass, glass cutting and washing.

The product portfolio has been specifically expanded and now comprises four central categories: processing, washing, insulating glass and glass cutting. The proven technology of Schraml products is continued under the brand LiTROS, with a focus on modular entry-level solutions and practical partial automation. LiTROS also provides digital solutions for flat glass processing: tools for order and batch management, dynamic production planning and real-time analysis. Modular, scalable and ideal for getting started with digitalised processes.
