COMPANY PROFILE

Mole Moreschi has know-how and direct experience in the production of diamond wheels and tools for glass processing, that are the result of more than 100+4 years of production. The company was first in the production and development of the resin wheels and, today, Mole Moreschi has a complete range of standard and special tools for the glass industry, with very high quality.

Some Italian and international glass machinery manufacturers have chosen Mole Moreschi as their preferred partner and found that the company's wheels have the best reliability and constant quality. This means that tools can be tested and new products developed to increase machine performances. Mole Moreschi uses the most advanced technologies in tool

production to guarantee the highest quality level possible.

The research and development activities of the company are dedicated to improving tool quality and guaranteeing production level.

Mole Moreschi's target is to maintain this very high level of quality, while guaranteeing the highest possible performance of customers' machines.

Mole Moreschi is always available to study and manufacture tools as per specific customers' requests for special production. The company's sales and distribution network is a winner not only for the quality and timing of service, but also with regards to the technical knowledge of its distributors who can assist and suggest the best tools.
