FLAT GLASS ENGINEERING SALES MANAGER

COMPANY FOUNDED

1946

For nearly 80 years, we have been – as we still remain – a leader in design, realization and implementation of complete plants for the production of hollow glass-providing highly customized solutions for all kinds of needs.

Highly skilled motivated engineers and technical teams that represent OGT, the recognition of the market and our peculiar and constant propensity to innovate, afford us the opportunity to be competitive in all sectors.

To anticipate the expectations of Customers and Markets, OGT organizes its activities through four Business Units:

- HOLLOW GLASS
- PHARMACEUTICAL PACKAGING
- INSULATION ENGINEERING
- FLAT GLASS ENGINEERING

Each BU is structured as a team of highly qualified professionals and engineers.

The supply of plants and integrated lines is completed by the production of tools,

accessories and spare parts as well as by our well-known dedicated Service.

Our installations are present all over the world and we are able to guarantee assistance anytime, anywhere.

We exist in the glass market to expand the technological horizon beyond, so that this is more sustainable for the market and the environment, with the strength of exclusive and performing solutions, always.

Since 1946, with the first rotary blowing machine up to the acknowledgement of one of the major realities in the world of glass.

A way sprinkled with international performances and success stories, also through the acquisition of different brands such as ANTAS, LYNCH SYSTEMS and LINDNER, all led **Olivotto Glass Technologies** to be a global reference for the production of hollow glass.

We have built our technology-driven identity on continuous research for innovation, choosing to diversify and deepen our potentialities, thanks to investments in ever-increasing R&D.

Product Range

- **SERVO FEEDERS**
- **SERVO PRESS & BLOW MACHINES**
- **STRETCHING & BURN OFF MACHINES**
- **BLOWING LINES**
- **STEMWARE PRODUCTION LINES**
- **WELDING STRETCHING MACHINES**
- **GLASS INSULATORS FORMING LINES & AUTOMATIC ASSEMBLING LINES**
- **PRESS MACHINES**
- **FIRE POLISHING MACHINES**
- **SPINNING MACHINES**
- **CONTAINER GLASS MACHINES**
- **AUTOMATIC PACKAGING LINES**
- **TUBING LINES FOR PHARMA-PACKAGING**
- **GLASS WOOL LINES**
- **TURNKEY LINES FOR FLAT MANUFACTURING AND PROCESSING**
