assembly, wiring, quality control, testing, and FAT (Factory Acceptance Testing).

Our turnkey service includes design, production, installation and commissioning - providing our clients with a single, reliable point of contact. Our product range includes conveyors for bottles, packs and bundles, as well as highly-flexible modular palletizers. MAKO is equipped to deliver, install and support systems worldwide. In addition to supplying new projects, we offer maintenance and upgrades to existing machinery -whether originally supplied by us or by third parties- and we provide options for remote assistance contracts.

Our mission is to deliver innovative, dependable solutions, supporting clients at every stage of the project lifecycle. Choosing MAKO means partnering with a company that is skilled, responsive and capable of turning ideas into reality.

MAKO - Tailormade solutions for industrial automation

Founded in 2016 in Fontevivo, Parma, Italy, MAKO specializes in the design and manufacturing of conveyor systems, palletizers, depalletizers, shuttles, pallet labelling machines, and industrial automation systems for packaging across sectors including food & beverage, hollow glass, bags and jars. With a dedicated team of professionals, we offer turnkey solutions that are customized and innovative. Our 10,000-square-metre production facility allows us to manage all stages of the process in-house - metalworking,
