

From Parma to global markets with **ALL GLASS**

In the heart of Italy's Po Valley, ALL GLASS has grown from humble beginnings into a global leader in cold-end solutions for the hollow glass industry. Driven by innovation, precision and passion, the company delivers cutting-edge systems that are trusted today by top international brands across multiple sectors.

Founded at the end of the 1990s in Traversetolo, a small village in the province of Parma, All Glass Srl has since navigated years of sacrifice, dedication and ambition - the winning trio of qualities that's emblematic of Italian craftsmanship. Such core values have enabled the company to grow, innovate and rapidly establish itself as a leading force within the cold-end sector - becoming the trusted partner of major national and international brands in the hollow glass industry.

AN AMBITION FOR GREATNESS FROM THE OUTSET

All Glass has always maintained its head office in the province of Parma and today employs approximately one hundred professionals - evenly distributed among Executives, Managers, Technical Staff and Skilled

Production Personnel. Its operations span multiple production units, with a total covered area of around 45,000 square metres. The swift and consistent achievement of strategic objectives has further fueled All Glass' commitment to research and development - consistently placing the company at the forefront of the market in delivering new technical solutions aimed at enhancing efficiency and product quality.

COLD-END EXPERTISE

To date, All Glass has designed and installed nearly 3,500 transportation and palletisation lines within the global glass container sector. By mastering the specific demands of each system and embracing their unique features, the company has significantly expanded its expertise. This accumulated knowledge has enabled the development of a broad product portfolio - ranging from pharmaceutical vials and

perfume containers to the most uniquely shaped bottles. Thanks to its deep experience in the cold-end sector, All Glass is well-positioned to offer tailored projects and consultancy services. Each initiative begins with an in-depth technical analysis and culminates in solutions that deliver the efficiency and flexibility the market demands - with a uniquely comprehensive and client-focused approach.

SOLUTIONS THAT TRAVERSE MARKETS

The company also operates a specialized division dedicated to the resorting of hollow glass products for the pharmaceutical, food and tableware industries - serving clients both nationally and across Europe. Supported by two production plants, this division boasts a monthly capacity of approximately 20 million items - all reselected and repackaged. It

features cutting-edge automation and a Clean Room that's specifically designed for pharmaceutical-grade resorting. Its rigorous quality control and traceability system complies with the highest regulatory standards, including UNI EN ISO 9001:2005 - all to ensure maximum reliability and service excellence.

A SOLID FIDELITY TO THE COMPANY MISSION

With rapid response times, a keen ability to interpret client needs, and a talent for transforming ideas into practical, creative solutions, All Glass strives to be the ideal partner for companies seeking exceptional handling of hollow glass products.
