### COMPANY DATA

#### Contacts

**Fernando Catalán** - CEO - Chief Executive Officer  
**Victor Fernandez** - COO - Chief Operating Officer  
**Josep Lluís Waquer** - CTO - Chief Technology Officer

#### Annual Group Turnover

EUR 4,500,000

#### Annual Company Turnover

EUR 4,500,000

#### Percentage of turnover from glass (%)

0

#### Sales

Domestic 60% / International 40%

#### Quality certifications

ISO 12100:2012 - ISO 13155:2004+A2

#### Banks

Caixabanc S.A.

#### Area

Office area 320 m<sup>2</sup> / Plant area 3,000 m<sup>2</sup>

#### Number of Employees

45

#### Founding Year

1997

#### Registered brands

Tecnocat

#### Planned Exhibitions 2026

- Tektonina** - Lisboa, Portugal - 23 / 25 April
- Glass-Tech Poland** - Warsaw, Poland - 26 / 28 May
- Glasstech Mexico** - Mexico City, Mexico - 15 / 17 July
- Glasstec** - Düsseldorf, Germany - 20 / 23 October
- Veteco** - Madrid, Spain - 10 / 13 November

### COMPANY PROFILE

#### GLASS MOVEMENT

With more than 29 years of proven experience, Tecnocat is recognized as a global reference in advanced handling, lifting and storage solutions for the flat glass industry. Since its foundation, the company has followed a clear strategic vision: to help glass processors, industrial manufacturers, construction companies and façade specialists move glass more safely, efficiently and with greater control, through reliable solutions engineered around real operational needs.

Operating in a demanding and continuously evolving market, Tecnocat has positioned itself as a trusted technological partner rather than a conventional equipment supplier. This positioning is the result of a consistent commitment to innovation, engineering excellence and customer-focused development, enabling the company to deliver more than 15,000 machines worldwide and operate successfully in over 100 countries.

Tecnocat's leadership is built on innovation, flexibility and a deep

level and system integration, ensuring long-term efficiency, scalability and ease of use. Safety, reliability and durability are engineered into every Tecnocat solution from the outset. Through rigorous design criteria, high-quality components and robust manufacturing processes, the company ensures predictable performance, long service life and reduced downtime. Continuous investment in Industry 4.0 technologies, digital connectivity and modular design enables Tecnocat to deliver intelligent, future-ready solutions.

With a strong global footprint and active participation in major international trade fairs, Tecnocat remains closely connected to market trends and technological evolution. More than a machinery manufacturer,

understanding of real production and on-site environments. Its solutions are engineered to enhance safety, efficiency and productivity across the entire glass handling workflow, from storage and internal logistics to factory operations and on-site installation. By combining robust mechanical design with continuous technological innovation, Tecnocat delivers equipment that professionals can rely on in both industrial facilities and demanding jobsite conditions. Founded over 29 years ago, Tecnocat began its journey with a strong specialization in glass handling solutions at a time when automation and safety standards were undergoing significant transformation. Since then, the company has continuously expanded its product portfolio, engineering capabilities and international presence through strategic investments in manufacturing processes, quality control and research and development.

The company designs and manufactures a comprehensive range of solutions including motorized, automatic and manual vacuum lifting systems, lifting solutions and lightweight crane systems, as well as dedicated handling and storage equipment. These solutions are developed to handle glass of different sizes, weights and formats with maximum precision, stability and reliability, while reducing manual handling and operational risk.

A key differentiator of Tecnocat is its engineering-led customization capability. The company combines standardized, field-proven systems with tailor-made solutions adapted to each customer's workflow, space constraints and safety requirements. Customization extends to machine configuration, automation

Tecnocat is a strategic partner committed to supporting its customers' progress through innovative, reliable and sustainable glass handling solutions.
